

IDAN JOSH TUBBALI BOSI

Filipino Citizen | (+63)9299647407 | joshidanbosi02@gmail.com | LinkedIn: [Idan Josh Bosi](#) | GitHub: [jsxh2](#)

EDUCATION

Polytechnic University of The Philippines <i>Bachelor of Science in Computer Science</i> ○ Latin Honor: Cum Laude ○ Relevant Coursework: Web Development, Human Computer Interaction, Software Engineering 1 & 2, Applications Development and Emerging Technologies, Technical Documentation and Presentation Skills in ICT	Sta. Mesa Manila, Philippines <i>September 17, 2025</i>
--	---

SKILLS

Programming Languages: Python, C, SQL
Web Development: HTML, CSS, JavaScript, React.js, Next.js, SASS, Semantic UI
Databases: MySQL, Firebase, MongoDB
Design & Collaboration: Figma, Canva

EXPERIENCE

Zynappse Corporation <i>Web Developer Intern (Remote)</i> • Delivered responsive and accessible front-end web solutions optimized for cross-device compatibility. • Built both Multi-Page Applications (MPA) and Single-Page Applications (SPA), demonstrating strong adaptability in web architecture. • Developed independent web projects including a personal portfolio and article platform. • Utilized React, Next.js, Semantic UI, and SASS to create intuitive and maintainable user interfaces.	Pasig City, Metro Manila <i>Aug 2024 – Sep 2024</i>
--	---

RELEVANT PROJECTS

DermaScan (Thesis Project) <i>Team Leader, Researcher, Model Developer</i> • Designed a hybrid deep learning model using AlexNet for feature extraction and XGBoost for classification, achieving accurate detection of eight facial skin disease types. • Developed a responsive front-end MPA with React and implemented AI model integration using Python for the backend.	Polytechnic University of the Philippines <i>March 2024 – March 2025</i>
Website Portfolio <i>Web Developer Intern (Remote)</i> • Created a responsive Next.js Single-Page Application (SPA) portfolio website using SCSS. • Showcased personal projects and technical skills through a modern and user-friendly design.	Zynappse Corporation <i>Aug 2024 – Sep 2024</i>
VCT Dispatch <i>Web Developer Intern (Remote)</i> • Built a React-based Multi-Page Application (MPA) news article platform using Semantic UI. • Optimized the interface for desktop and laptop viewing, focusing on clean and organized layout design.	Zynappse Corporation <i>Aug 2024 – Sep 2024</i>
CleverCash <i>Full Stack Developer (Student Project)</i> • Designed a Single-Page Application (SPA) for smart financial management using React and JavaScript. • Integrated MongoDB for secure data storage and dynamic content updates.	Polytechnic University of the Philippines <i>2023-2024</i>

- A Multi-Page Application (MPA) digitizing the PUP ID replacement and ticketing process.
- Built the front-end using HTML and CSS, and the back-end with JavaScript and Firebase for real-time data handling.
- Streamlined administrative processes and improved accessibility through a digital workflow.
